

Dear parent or guardian,

This year, we'll be using Khan Academy in math class to personalize learning for all students!

Khan Academy is a free online resource that allows students to learn anytime, anywhere, with material that is uniquely appropriate for them. Students can explore new topics and strengthen their math skills by using interactive practice and tutorials. As students learn, their activity feeds into reports that show important information such as strengths and weaknesses in a particular concept. By using Khan Academy, I'll be able to provide a more personalized learning experience for your child.

We will be using Khan Academy during our math centers, and students are encouraged to use this resource at home as well!

If you approve of your child participating in this program, please provide the information below.

Student name: _____

Student birthdate: _____

Parent/guardian email: _____

(An email will be sent asking you to verify your child's account, but you will not receive any other emails without your permission.)

If you want to see how your child is learning on Khan Academy, I encourage you to create your own Khan Academy account as well. You'll be able to see what your child is working on, and there's plenty of material on the site for you to learn anything you want, too. Simply go to www.khanacademy.org and click Sign Up to get your own account.

Check out the links below to learn more:

Khan Academy: www.khanacademy.org

Terms of Service: www.khanacademy.org/about/tos

Privacy Policy: www.khanacademy.org/about/privacy-policy

Please sign below to give your child permission to use Khan Academy in my class.

Parent Signature: _____ **Date:** _____

Warmly,
Miss Jennings
